

## STRIA

The Stria profile is a minimalist solution for seamlessly integrating flexible strip lighting into wooden panels.

Wide enough to house any Lumily flexible strip light, the Stria is a versatile solution that will sit comfortably under cabinets, inside larders or inside wardrobes. The profile is also suitable for installation in kitchens, bedrooms and bathrooms and installation is made quick and simple by the metal barbs located at either side. Simply push the profile into a 19mm recessed channel to achieve a flush fit.

### BENEFITS

- Helps to protect the LED flexible strip from water and dust
- Helps to reduce the appearance of individual LED dots

### TECHNICAL SPECIFICATION

Profile Material	Aluminium
Diffuser Material	Polycarbonate

### KEY FEATURES

- Flush fit for a minimalist look
- Aluminium finish
- Flexible and easy to install
- End caps protrude to fill the gap in furniture when cut with a router
- End caps supplied with each profile (2 with the 1m, 4 with the 2.5m)
- Perfect for use under cabinets, inside larders or inside wardrobes
