

## GLEAM S+

The vastly popular Gleam flexible strip has now been upgraded to feature CCT technology, enabling the light source to seamlessly transition between warm and cool white. T

he outer body of the strip is made from silicone rubber, which is great for recessing into grooves with a simple push-fit, as well as diffusing each individual diode for a uniform light output.

The LEDs within the silicone body are also mounted sideways, enabling the strip to flex around sweeping corners with ease.

### BENEFITS

- Easy to use and install
- Ideal for both under and in cabinet lighting
- LED Technology for long life
- Low energy consumption

### KEY FEATURES

- An entirely diffused, bendable, silicone flexible strip light ideal for application across the kitchen or bedroom
- CCT -Enables seamless transition from cool to warm white
- Ideal for a flush, recessed finish with a simple pushfit
- Can be recessed or surface mounted for neat finish

### TECHNICAL SPECIFICATION

Voltage	24V
Wattage	4.8 W/m
Light Output (lm)	540
CRI	>90
Cut Marks	50mm
Beam Angle	110°
Color Temperature	2700-6000
Cable	2.5m at each end
Operating Temperature	-30°C to + 45°C

## ORDER CODES
