

## OPTIX S IP65

The new Optix S IP65 flexible strip is an innovative solution, protected by a design right, cuttable at any length and delivering precision for installation—leaving no spots in the dark. It can be customised to fit any project size and shape without compromising light quality or consistency.

Using advanced chip-on-board (COB) technology, Optix S IP65 produces a perfectly diffused, continuous line of light with no visible LED dots, removing the need for a profile or additional cover.

Designed for demanding environments, Optix S IP65 is fully sealed behind a clear plastic protective cover and paired with IP65 rated connectors, providing reliable resistance to dust and moisture while preserving a clean, minimal aesthetic.

### BENEFITS

- Cuttable at any length, so there is no waste or dark spot.
- Compatible with the Core IP44 Driver
- Energy Saving (good lumens per watt ratio)
- Registered design right: 6366472

### KEY FEATURES

- Dimmable
- IP65 rated for bathrooms
- High colour rendering index: >90
- Available in Natural White

### TECHNICAL SPECIFICATION

|                       |                                      |
|-----------------------|--------------------------------------|
| Voltage               | 24V                                  |
| Wattage               | 6 W/m                                |
| Light Output (lm)     | 600 lm/m                             |
| CRI                   | >90                                  |
| No. LEDs per meter    | 512                                  |
| Beam Angle            | 180°                                 |
| Color Temperature     | Natural White: 4000K                 |
| Cable                 | 2.5m at each end with IP65 connector |
| Operating Temperature | -30°C to + 45°C                      |
