

ARC

The Arc profile designed for illuminating the inside of cupboards, larders and similar enclosed spaces. Its 45-degree angled design projects light forward across a wide area, ensuring even, diffused illumination without visible hotspots or individual diodes.

The profile is compatible with all Lumily flexible strips, making it a versatile choice across a wide range of installations.

Mounting is straightforward, the profile simply pushes into the supplied corner brackets. The Arc is supplied with end caps in a complementary grey finish, and is available in 1m and 2.5m lengths.

BENEFITS

- Opal diffuser creates completely diffused LED points
- Simple installation
- Provides additional protection to the flexible strip

KEY FEATURES

- A versatile product as both the profile and flexible strip can be cut to length
- Can be surface mounted under kitchen cabinet or used inside tall housing units or wardrobes

TECHNICAL SPECIFICATION

Material	Profile - Aluminium
	Opal diffuser - Polycarbonate
Accessories	1m Supplied with 2 end caps and 2 mounting brackets
	2.5m supplied with 2 end caps and 4 mounting brackets
